# EXTREME ORIENTAL CAT

This model differs from the previous one in many ways, it has a thinner body, longer legs and tail, and two types of heads: Male and Female and each has two options, one with the eyes open and one with semi-closed eyes. These cats are very nice in large sizes (like 8 - 9 - 10 cm at the withers), and complex coloring suits them the best: Tabby (grey or red) and Bengal.
